**Subject:** Your questions for EPA.

Good morning.

We'll be sending an advisory shortly.

Best, R.

**Morning:**

**We understand that Ms. McCarthy will be going to Colorado today for a 2pm event – am wondering if she will go up to Silverton to inspect the area where the spill originally occurred? Or, will she be staying in Durango where water quality samples are being tested?**

**We have a crew in Durango and want to make sure that if Administrator plans to tour the Silverton site – that our crew pre-positions there.**

**Thanks in advance for your attention to this matter.**

**Regards,**

**tom**
